MATH AT HOME BINGO

Choose one box to do each day and color it in. 5 in a row is a BINGO! Can you fill the whole board up for a mega BINGO?

| | | | | |
|---|---|--|---|---|
| Build a tower as high as you can out of books or plastic cups. Write down the number of pieces you used. Circle if the number is even or odd. | Play I Spy Shapes with your family. Describe what you see in a room and have others guess. Write down the number of pieces that has 4 sides and 4 corners. One to a 4 is a rectangle. | How many girls are in your house? How many boys are in your house? (For extra fun, count the number of eyes and ears.) | Search your house. How many squares can you find? (Example: a napkin) | Skip count by 5 while doing jumping jacks. |
| Use your toys to make a pattern on the floor. Draw or use your hands to make a pattern on your house. Write down the number of toys in the pattern. Play 2-3 times. | Take a basket of toys and sort them by shape. Then try to sort them by color and size. | Play I Spy in your house. How many circles can you find? (Example: a round clock) | How fast can you add and subtract your numbers? Make an addition and subtraction and solve as fast as you can for each. | Count the corners and legs in your kitchen. Are the numbers greater than, less than, or equal to? Write it down. |
| Find 10 items in your house. Count the number and practice skip counting by 10. | Help your family make sandwiches for lunch or dinner. Cut each sandwich into fourths (four equal pieces). | Your choice | How many books are in your house? Make an estimation then count them and put them all away! | Play 5 Minutes Pick Up! Set the timer and put as many things in a basket or bag on the floor. When the timer goes off, count them and then put them all away! |
| Find a toy car or another small toy. Use it to measure a chair, table, and an item of your choice in your house. Write down the measurements. | Play I Spy in your house. How many triangles can you find? (Example: a triangle on a clock face) | How many shoes are in your closet? Skip count by 2's. | Draw a robot using only circles, squares, rectangles, and triangles. When you are finished, write down how many of each shape you used. | Pick a number between 1 and 10. What's less than, more than, and equal to that number? |
